

THE ROANOKE TIMES. SATURDAY, JUNE 18, 1892.

"When We Say It's So, It Is."**W. E. DEATON,****WHOLESALE GROCER,
ROANOKE, VA.**

We believe in plain, straightforward business methods, and live up to them.

We carry a full line of Groceries and Provisions, and solicit your friendly patronage. We mention a few specialties, all excellent goods:

FLOUR:

Saratoga,
Purity,
Little Giant.

MEATS:

Clear Sides,
Sugar-cured Shoulders,
English Shoulders,
Choice Hams,
Fat Backs.

TOBACCO:

Vaughan's Best,
Old Rover,
Big Augur,
Gold Leaf,

THE IRON BELT**BUILDING AND LOAN ASSOCIATION,
ROANOKE, VA.**

This institution was organized in June, 1890, and has now over one hundred branches.

Being a purely co-operative bank, it observes in its conduct the same rigidly conservative management that obtains in all well-regulated banks.

Its plan covers every point of value in the building and loan system, being modeled after the English "continuing" plan.

Its paid-up, interest-bearing stock (par value \$100) is \$50 per share, yielding a cash dividend, payable semi-annually, January 1 and July 1, of six per cent. per annum on the \$50 paid in, which is duly remitted the shareholder, so as to reach him the day the money is due.

Its instalment stock is \$1 per share, membership fee. The first monthly dues are payable the third Saturday of the month succeeding the date of the certificate of stock, and are 60 cents per share per month.

This money is invested by the Association in first mortgages on improved town real estate, duly insured for the benefit of the Association, on a basis not exceeding 50 per cent. of its value, as ascertained by selected appraisers and from other thoroughly reliable sources, while the debt of the member borrowing is being curtailed every month of its existence.

Being backed by the security stated above, the investment is absolutely non-speculative in character, and is therefore safe beyond question and most profitable.

J. M. W. BYRD.

The Wesleyan Female Institute, Staunton, Virginia.

This time-honored institution of learning has just closed its forty third annual session under the most flattering circumstances. Its roll of boarding pupils numbered 152 from twenty States. This College, for twenty years, under the management of Dr. Wm A. Harris, has enjoyed brilliant success and has attained a national reputation. Its graduates, in the various States, are its strongest testimonials. It has a faculty of twenty-five teachers and officers trained for their respective departments. The buildings are imposing and comfortable, and are situated on one of the most attractive and desirable sites in the city. As an educator, Dr. Harris stands among the first in the Union, and his success has been phenomenal. We congratulate the doctor and predict for him continued success in this field of labor for which he is peculiarly fitted.

Why not encourage home enterprises when it costs nothing additional to do so? You can purchase "house furnishing goods" of the E. H. Stewart Furniture Company as low as you can in the Northern cities, and save freight and risk of damage.

**J. M. GAMBILL & CO.,
WHOLESALE GROCERS,**

AND THE

**Roanoke Elevator and Milling Company,
ROANOKE, VA.**

This company established the wholesale grocery trade in Roanoke in 1882, in the face of a general prediction that success was impossible. About three years ago a large mill and elevator was constructed, with a daily capacity of 130 barrels of flour, 600 bushels of meal and 1,300 bushels of chop. The firm owns railway tracks sufficient to hold 25 cars, and its buildings occupy two acres of ground. Its trade is large and extends throughout Virginia, Southern West Virginia and North Carolina. The stock of groceries carried is simply tremendous, and success marked the concern from the beginning.

PEOPLE NOW ON EARTH.

Miss IRENE G. WOOD is now enjoying her first vacation after teaching school in the same room for a period of seventy-two consecutive years in Cohasset, Mass.

JOSEPH MURPHY is put down as the richest of actors. He is said to be worth \$450,000, most of which represents the savings from his annual income, for he is one of the most economical of stage artists.

ROBERT C. WINTHROP, one of Massachusetts' worthies, who dates back to the time when Boston was a bustling little country town, makes it a pleasant boast that he has been personally acquainted with every president save Washington and Jefferson.

Dr. BANCROFT, of Chicago, is, although blind, a specialist in throat and lung diseases, his acute ear making up for his lack of sight. He was materially advanced in his studies by the aid and encouragement given him by Dr. May French, now Mrs. French-Sheldon.

AUNT BETSY McKAY, of Taylorville, Ky., has reached the very old age of one hundred and six years, but her eyesight and memory are remarkably preserved. She has one hundred and twelve descendants living, and remembers many interesting incidents of early Kentucky life.

A STATISTICAL CORNER.

For a pound of honey, bees visit from one hundred to two hundred thousand flowers.

NORTH RIVER ferryboats transport 80,000,000 people and 130,000,000 tons of freight every year from the shores of New Jersey to New York.

In a full return of the vintage in Spain last year, as published, the total yield of wine is estimated at 540,000,000 gallons, and is described as good in ten provinces, fairly good in thirty-four and bad in five.

"It has been estimated," says the Tropical Florida, "that there is in this state 350,000,000 tons of moss hanging on our trees. This, when gathered and cured, is worth four cents per pound at our doors. If it is worth one cent a pound it would amount to the enormous sum of \$7,000,000."

The British Medical Journal says that during 1891 the people of Paris consumed 21,291 horses, 229 donkeys and 40 mules—the meat weighing 4,615 tons. It was sold in the shops at from 2d. to 10d. per pound. Only one-third was sold fresh and undisguised, the rest being made into sausages.

THE BEAUTIFUL IN ART.

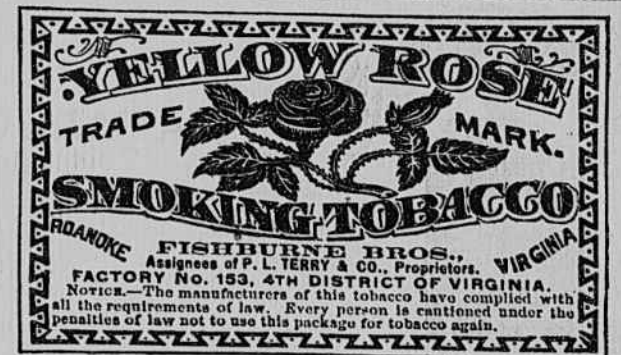

ELWELL, the sculptor, who recently completed a bust of Louisa M. Alcott, was one of her "little men."

In collections centuries old, to be seen in China and Japan, are specimens of the most remarkable drawings in the world—pictures of all kinds drawn with the thumb nail.

The works of a distinguished Japanese painter are on exhibition in London, and are greatly admired. His name is Watanabe Seitei, and he is a native of Tokio. Some of his paintings have already been exhibited in Paris and praised by the French critics.

ONE of the most sensational paintings at the British exhibition this season is Mr. Waterhouse's "Circe." The picture represents the enchantress engaged in poisoning the little stream where Scylla was wont to bathe and holding aloft a green bowl containing the poison she has been preparing in her palace.

In Paris statistics with regard to the relative positions of gas and electricity in that city show that the consumption of gas continues to grow, although the rate of increase is somewhat less than it was.

A. S. HUGHES.

W. P. CAMP.

HUGHES & CAMP,

153 Salem Avenue S. W.,
ROANOKE, VA.

This enterprising firm are the most extensive dealers in Carriages, Phaetons, Surries, Buggies, Sulkies, Saddles, Harness, Whips, Robes, Saddlery Hardware, etc., in Virginia. In addition to their large salesroom at address above given, they have a large warehouse on Eighth avenue s. w., both filled with stock. The very best workmen and material to be procured are employed in manufacturing goods, and their guarantee is as good as pure gold. Hughes & Camp are sole agents for the buggy made by the Ohio Buggy Company, made at Columbus, and the celebrated Studebaker Wagon, both without a superior on the market. This firm thoroughly understands its business, and is prepared to offer superior inducements to the trade. Call and see them and their stock while in Roanoke.
